# FENRIS RECON

## Slim profile big volume waterproof bag

The Fenris Recon offers the highest levels of water and dust proof protection during Maritime Operations for your gear. A combination of 840D and 420D double TPU ripstop fabrics creates the perfect balance of durability and low weight. Designed with a slim profile, padded back system and our premium level shoulder straps for extended use. The long waterproof main zipper offers full immersion protection and easy access. Designed to easily pack your specialist or 2. line gear.
