Unique end wing design and premium shoulder straps

KRAKEN

The toughest big volume kit hauling waterproof bag

The Kraken offers the highest levels of waterproof protection for your gear during all military operations. Designed for the toughest environments the Kraken uses 840D double TPU fabric throughout. The shape has been chosen for ease of transportation by boat or on foot. The long waterproof main zipper offers full immersion protection and combined with the unique end wing design, gives easy access to the full compartment.
